

THINGS TO REMEMBER

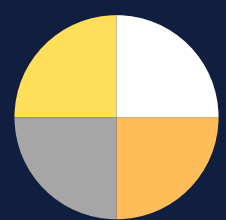

ESSA@WORK

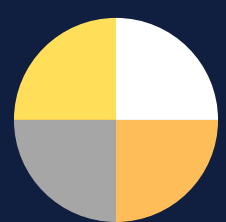

You need to submit an extended abstract or full paper and an ESSA@work application form

Refer to our 'How to write for ESSA@work' and Grimm *et. al* (2010) ODD protocol for guidance in writing your abstract or full paper

Please strictly comply with the page limits specified by the Social Simulation Conference. Usually, extended abstracts are 4-6 pages and full papers are 12-14 pages including references

Your model can be at any stage of development, but remember the more clearer your model description and questions are, the more likely it is that ESSA@work can help

Questions for the ESSA@work organising team?
